

```
# Feature → Adds system + user role separation, rule-based control

{
    "role": "system",
    "content": "You are an expert Python programmer whose primary role is to write comprehensive unittest test suites. Be professional, precise, and output only runnable Python code."
},
{
    "role": "user",
    "content": f"""Write a complete unittest test suite for the following Python function.

Follow all rules carefully.

```

```
### Output Formatting
1. Start with: import unittest
2. Include: from {module_name} import {function_name}
3. End with:
if __name__ == '__main__':
    unittest.main()
```

Function:

```
{code_content}
"""
}
```
